ABOUT THE PROJECT

Sera 1 is a resort-inspired waterfront residential development by **Emaar Properties** at **Rashid Yachts & Marina** in Mina Rashid. The project combines contemporary marina living with water gardens, pools, landscaped spaces and direct access to a waterfront environment designed around yachting, leisure and hospitality.

The residential collection includes **1, 2 and 3-bedroom apartments alongside a limited collection of 3-bedroom townhouses**. This mix provides smaller residences suitable for investors and professionals while the larger townhouse configurations offer a more spacious option for families seeking waterfront living.

Published project inventory places residences between approximately **728 and 2,583 sq. ft.** The largest configurations are associated with the three-bedroom collection, making the overall project significantly more varied in size than an apartment-only development.

Sera 1's architecture draws heavily on its maritime setting. Emaar uses **sand-toned finishes, reflective light-blue glazing and champagne-coloured accents** across the façade, creating a contemporary nautical character. Textured materials add depth while allowing the building to remain visually connected to its marina surroundings.

Inside, the residences continue the resort-inspired aesthetic through **natural tones, warm textures and subtle metallic accents**. Sunlit interiors and connections between indoor and outdoor areas are intended to maximise the project's waterfront setting and create a relaxed residential atmosphere.

The project's confirmed amenity programme includes a **water garden, gym facilities, children's play areas, expansive landscaped amenity podium, multipurpose rooms and retail outlets**. Pools and landscaped water features form an important part of the overall resort-style concept.

Residents also benefit from the broader infrastructure of **Rashid Yachts & Marina**. Emaar confirms a marina capable of accommodating yachts up to **100 metres**, approximately **400 wet berths**, six interconnected district parks, a floating yacht club and views toward the Arabian Sea and Dubai skyline. The historic **Queen Elizabeth 2** is also located within the wider destination.

Connectivity is another advantage. Emaar places Rashid Yachts & Marina approximately **15 minutes from Dubai International Airport and 20 minutes from Downtown Dubai and Burj Khalifa**, allowing Sera 1 to combine a coastal setting with relatively convenient access to central Dubai.

Sera 1 is scheduled for **Q4 2029**, with current project information specifying **November 2029**. Its payment structure is **80/20**, comprising 10% at booking, 70% through construction instalments and 20% upon completion.

From an investment perspective, Sera 1 combines **Emaar branding, waterfront positioning, marina infrastructure and a relatively central coastal location**. Its apartment-and-townhouse mix also provides more product diversity than many neighbouring apartment-only projects.

Buyers should compare individual residences according to **floor, marina or water view, orientation, balcony or terrace size, layout efficiency and acquisition price per square foot**. The three-bedroom townhouses should be assessed separately from apartments because their larger format and more limited supply may create a different resale profile.
